ABOUT OUR COMPANY

Prime Indus Saudia, Saudi Arabia, is a specialized manufacturer of paper cup blanks designed for disposable paper cups used in both hot and cold beverages. We produce high-quality printed and die-cut blanks using biodegradable and PE-coated paper, available in a wide range of GSM specifications suitable for single-wall and double-wall cups. Our products are engineered to meet performance, durability, and food-safety standards required by the beverage industry.

Our Vision

To be a leading provider of sustainable & innovative paper cup solutions, setting quality & environmental standards in the packaging industry.

Our Mission

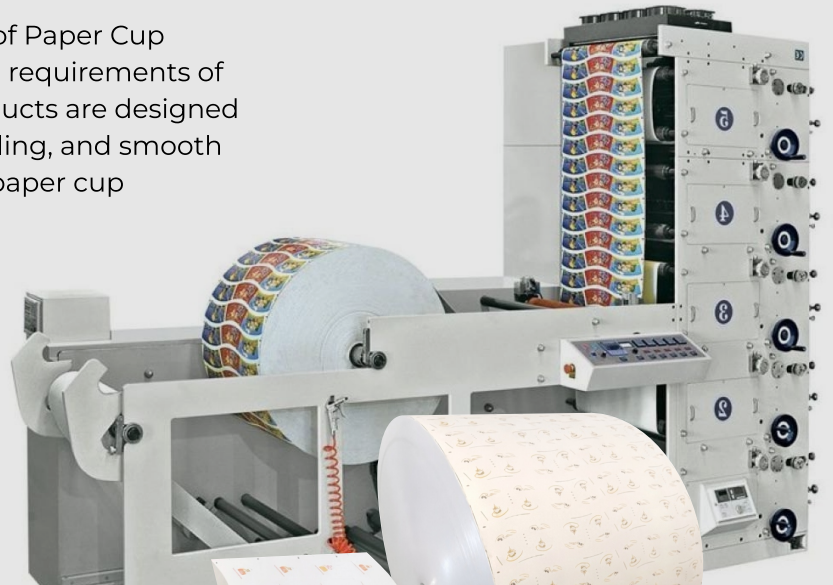

To produce hygienic, reliable and customizable paper cup blanks while meeting quality standards and customer expectations.

Our production process includes advanced printing, precise die cutting, and hygienic packing, supported by modern machinery and auxiliary equipment to ensure consistent quality, dimensional accuracy, and regulatory compliance. We supply paper cup blanks in sizes ranging from 6oz to 16oz, offered in plain or custom-printed formats, with flexible customization options to meet branding and volume requirements.

PAPER CUP BLANKS (FAN) MANUFACTURING

We are a reliable manufacturer and supplier of Paper Cup Blanks (FAN), engineered to meet the precise requirements of modern paper cup production. Our FAN products are designed to deliver consistent performance, strong sealing, and smooth forming across all standard and customized paper cup machines.

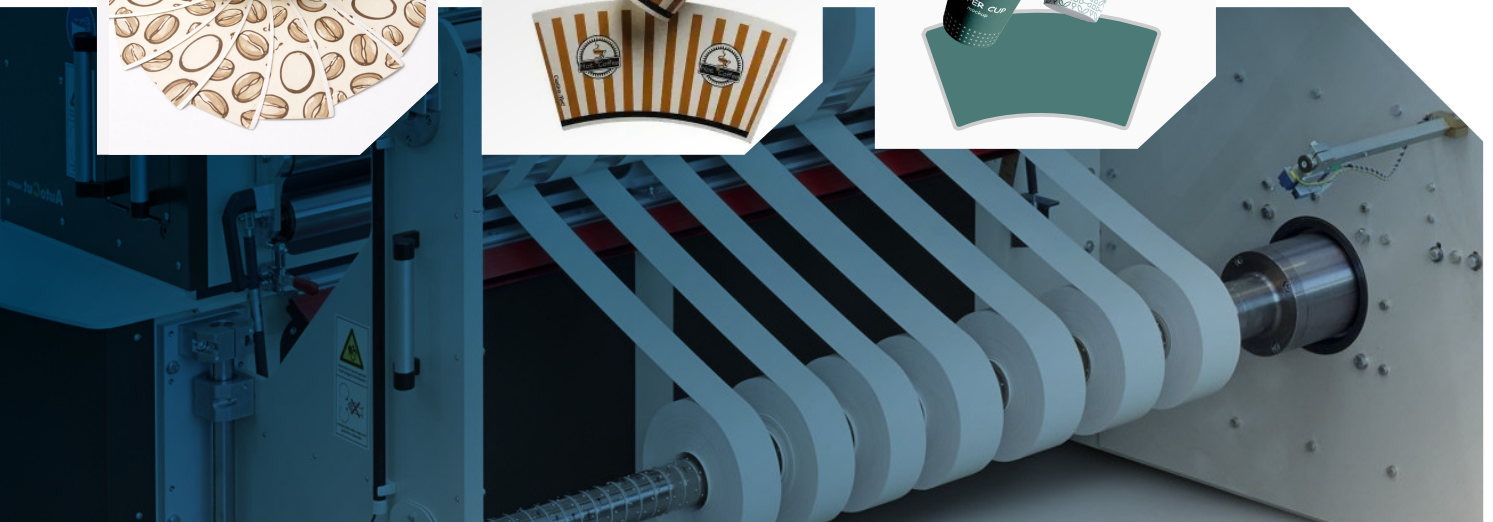

Features:

Available in biodegradable and PE coated paper

Suitable for single wall and double wall cups

Accurate sizing and smooth cutting

Compatible with automatic paper cup machines

PAPER BOWL BLANKS

Prime Indus Saudia manufactures paper bowls and paper bowl blanks designed for food packaging applications such as soups, salads, noodles, ice cream, and takeaway meals. We offer printed and die-cut paper bowl blanks made from biodegradable and PE-coated paper, available in multiple GSM options to suit different bowl sizes and food types. Our blanks are compatible with single-wall and double-wall paper bowls, ensuring strength, leak resistance, and excellent heat retention.

PAPER CUPS

Our extensive range of paper cups accommodates every beverage need. From hot tea and coffee to cold juices and soft drinks, each cup is manufactured with precision and care, using high-quality biodegradable or PE-coated paper. Our cups meet international standards for food safety and environmental sustainability.
